Project Title: - **Combat Social Isolation**

Project overview: - Community hub event

Supporting information: Social isolation can be a result of many different things, from major changes in personal life style to degeneration of local infrastructure and the loss of meeting places.

The challenges:

- Some people partially or largely house bound – how do we reach this category of person?
- Not much opportunity for old & young to mix – social cohesion objective
- How do we engage those in work and those who are not? – social cohesion again
- Can we promote digital skills as a way of reducing isolation, whilst at the same time improving communications between people and agencies?

Project suggestion

That Six Bells Community Hall be used for a public event in the Spring to inform local community of the 'Wellbeing' concept and get feedback from attendees. Also to inform the community of what the ALCC does and promote the formation of community groups that will work towards 'Wellbeing Objectives'. With a follow up public event in the autumn.

Action plan:-

To be developed via ward group, WBWG and council
