**Project Title:-** Skate Park Regeneration

**Project overview:-** The current skate park at Six Bells has been tidied up recently. In the summer months it is used quite a bit. However I notice there is no shelter there. A rain shelter would enhance the facility for the users.

### **Supporting information:-**

I have not yet been able to speak to some of the youngsters who use it. It would be a good idea to seek their views at some point on what facilities they would like in Six Bells re. The skateboard park and anything else they think might improve their leisure time.

### **Action plan:-**

To be developed via ward group, WBWG and council

#### **Considerations**

- ✓ **Public engagement is key to any development of any project**
- ✓ **Why not engage local children to take part in a self regeneration scheme**
- ✓ **Could some form of shelter and lighting help lure children away from the underpass in inclement weather, reducing hazards from traffic and nuisance to resident for noise**
