

Criteria for noticeboard placements (suggestions)

Must be in locations that are frequented by significant numbers of people.

Should access people with a range of ages and backgrounds (there could be conditions where this is waved eg outside schools.)

Must not have other noticeboards nearby (what constitutes nearby may vary with locations and accessibility)

Must have the necessary permissions and planning agreements for the placement.

If there is an existing noticeboard nearby access to that should be explored as a first option.

Notices placed must be updated/replaced/removed regularly – no out-of-date messages should be left in the boards.

Boards must be maintained in a good, weatherproof condition.

Boards must display the Abertillery and Llanhilleth Community Council title prominently
